VANDERBILT HAS A CLASH PENN. TO RUN WITH HARRIMAN COMBINE. B. & O. SYSTEM

Panic on Wall Street and Collapse of the Scheme to Gain Control of the Northern Pacific.

E. H. Harriman's failure to eaptur the Northern Pacific Railroad and the which was caused by the struggle for control, have embittered W. K. Vanderbilt egginst that financier, and friends say have made a breach between them. If control could have been seized quietly Mr. Vanderbilt might have forgiven his friend and representative for stealing a march on J. Pierpont Morgan, but to be caught red-handed in the act and then to fall down smid the crashing of wrecks in Wall street was humiliating from every point of view.

It made explanations to Mr. Morgan necessary, for Mr. Vanderbilt's relations with the eminent financier are such that he cannot afford to have it appear that he had abetted a plan to take a

Vanderbilt stepped off the gangplank of the Majestic on Thursday, and when he learned the particulars of the panic indignation knew no bounds.

He has, Wall street says, located the riman, and very plain language has mind to assume the role of scape-goat. He contends that he committed no

tactical crime in the prosecution of his campaign for control of Northern Pacific, and that the failure was purely accidental. According to the Harriman version he would have had the control lodged safely in the Harriman-Vanderbilt-Gould-Stillman strong-box in another forty-eight hours but for the wholly unusual and altogether unexpected execution of an order to buy 150,000 shares of Northern Pacific-a purchase made on the Exchange on Monday last in true "Jimkeenesque"

That whirlwind feat disclosed the cipitated a corner-something not de-sired by either side, and which brought ruin to tens of thousands.

None of the mind-readers on his staff had been able to fathom the purposes of Jamer R. Keene to the extent of giv ing him warning of the execution of a 150,000-share order in two hours, when change, he should have been a week

cabling of that huge order by Morgan to Keene, or of the latter's intention to get the stock in one bite, he lost the

This explanation did not soften the sting of failure and public ridicule. It simply emphasized the fact that there had been bad generalship. Violent language, it is said, has been used, and as both men are high spirited, friends fear relations can never again be cordial.

The woman stopped and looked appealingly at the Judge. Downstairs a cell door clanged as a prisoner was locked in. The sound vibrated in the wilent court room.

Magistrate Olmsted handed her a 55 bill. Moved by a common impulse others did the same. Leaning over his desk Magistrate Olmsted reached out his hand. The poor woman put forth hers.

"I can hear her always singing up and down the steps and in every room," the poor mother said to me. The Evening World heard of the new Magistrate gave her \$12, and she closed the thin fingers over the money.
